Google Summer of Code

September 28, 2026

To Whom It May Concern:

Google is pleased to inform you that Atharv Chavan has successfully completed Google Summer of Code 2026, a program where accepted participants learn about open source software development by writing code for an open source project under the guidance of mentors.

Atharv was accepted into the program by, and developed open source software for, checkstyle, beginning May 25, 2026 and ending on September 21, 2026. Over that period, they passed their two evaluations conducted by their mentor receiving a stipend of 3000 USD for the project.

Atharv worked remotely on their project and was not required to visit either Google or the offices of checkstyle. Atharv Chavan was not directly employed by Google during Google Summer of Code 2026. The Google Summer of Code 2026 program was administered by Google from our corporate headquarters.

More information on Atharv's project can be found at: https://summerofcode.withgoogle.com/programs/2026/projects/NDqLGMII.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.

Best,

Stephanie Taylor
Google Summer of Code Program Lead
